

Amber tree awards at the Baltic Sea INTERREG III B project conference

Three selected projects were granted "amber tree awards" at the conference. The awards were granted for special achievements to:

1. **European Route of Brick Gothic** and its follow up project **EuRoB II** for:

Diving deep into the history of the southern Baltic Sea Region, and at the same time connecting the architectural heritage of the past with the challenges of today using modern IT-technology (excellent website)!

2. **SEAREG** and its follow up project **ASTRA** for:

Looking far into the future, but already today bringing economic, social and natural scientists, policymakers and spatial planners together in search for new tools and approaches when facing a global change affecting the whole Baltic Sea Region.

3. **BARENTS 2010** for:

Setting different sectors and areas of the northern Baltic Sea Region in motion, and at the same time involving the very eastern part of our region in true neighbourhood activities.
